

Curriculum Vision and Intent

At Watermoor C of E Primary School, just like mustard seeds our children grow and flourish from promising beginnings into successful, confident and capable individuals. Our curriculum is underpinned by our vision and incorporates our Christian Values of courage, respect, hope, forgiveness, compassion and responsibility.

We have designed an **ambitious** and engaging curriculum from pre-school to Year 6, underpinned by Development Matters guidance and the National Curriculum framework, which supports children to grow and flourish in all subjects.

In response to our unique context, children explore and respond to **diverse** thoughts, ideas, experiences and beliefs from people and places that are different to their own, fostering a sense of being part of a global community.

We deliver a curriculum that is **inclusive**, accessible, and relevant to the needs and interests of our pupils.

We plan a range of **immersive** and engaging trips and experiences across the curriculum to enhance children's learning, understanding and engagement.

As a Church of England school, our curriculum supports the **spiritual** development of our children. We use the language of 'Ows, Wows and Nows' to pause and reflect upon ourselves, our relationships with others and with the world in which we live.

Geography

Intent

Our geography curriculum has been carefully planned and sequenced, with knowledge, skills and understanding building progressively to ensure that children reach their fullest potential. We develop locational knowledge, explore aspects of both physical and human geography, develop fieldwork skills and study environmental geography, considering the impact of humans and how to protect the world.

Implementation

Our bespoke, whole-school progression in geography, in place from Early Years to Year 6, is delivered through sequences of lessons with clearly defined objectives, knowledge and vocabulary, supported by a range of high-quality texts and resources. To support effective learning, we employ a variety of teaching strategies including collaborative discussion and spaced retrieval to meet the diverse needs of our pupils. We encourage cross-curricular links to deepen understanding and show how different subjects relate to each other.

Assessment is embedded throughout the learning process, with regular checks on progress to inform teaching. Teachers provide timely feedback to pupils, ensuring they have the support they need to make progress and feel confident in their learning. They use assessment to inform adaptations which provide additional support or challenge. We value the opportunities that trips and school visits can offer and base these around our wider curriculum.

Impact

The impact of our geography curriculum is reflected in children's progress and attainment. We assess children's progress using assessment tools such as low stakes retrieval quizzes, composite tasks which demonstrate their key learning across a unit and Sonar Tracker. We also evaluate the development of children's engagement, curiosity and attitude to learning in this subject, as well as how it supports their wider personal and spiritual development.
